Mission Statement:

Our goal is to be positive role models to students by demonstrating a physically active lifestyle. Our focus will be to develop each student in terms of their cognitive, psychomotor and affective development.

Because we understand the importance of having a positive memory within physical activity, we strive to promote a welcoming environment where each student may find success no matter their age or ability. We believe a healthy body is the foundation for a healthy mind.

Ultimately, we want to guide youngsters in the process of becoming physically active and healthy for a lifetime.

'You don't stop playing because you grow old; you grow old because you stop playing!!'
